NATURE OF COMPLAINT

My name is Ashley and I used to work for Portsmouth Humane Society and I have only formally adopted one animal from there and it was a puppy. We had files for cats that had either gotten out or were lost so I agreed to let the shelter put the cats under my name saying that they were adopted. I later found out that this was illegal and it's called cooking the books. The shelter has also had feral cats spayed or neutered and asked me to release them. I also found out that that was animal abandonment so I stopped doing that. Some of the feral cats that I did release were put under my name as being adopted.

There are also cats living in the garage section of Portsmouth humane society for weeks, sometimes months and there is no air conditioner system in there and the temperature can get as high as 80 degrees.
